

Golf4Community — Internal Version Summary (v1 to v10)

Administrative summary of all Golf4Community documentation releases, 2025 Edition.

Version History Overview

| Version | Release Title | Completion Date | Core Contents / Notes |
|---------|----------------------------|-----------------|---|
| v1 | Initial Development Draft | May 2025 | Original concept notes, early admin HTML prototype. |
| v2 | Early Admin Flow Build | June 2025 | Admin login and placeholder user approval logic added. |
| v3 | Documentation Summary | July 2025 | Release Summary and QuickStart documents created. |
| v4 | Change Log Edition | August 2025 | Introduced detailed Change Log and structured documentation tree. |
| v5 | Deployment Plan Release | September 2025 | Added Deployment Plan, Distribution Checklist, and badges. |
| v6 | Archive Manifest Edition | September 2025 | Introduced full Archive Manifest and certification structure. |
| v7 | Legacy Archive Cover Sheet | September 2025 | Certification finalized; Legacy Archive Cover added. |
| v8 | Certified Archive Release | October 2025 | First official certified bundle; ready for documentation upload. |
| v9 | Verified Edition | October 2025 | Included Upload Verification Sheet; pre-launch QA complete. |
| v10 | Publicly Certified Archive | October 2025 | Final archive with all verification + post-upload confirmation forms. |

This document provides a complete internal record of the Golf4Community project’s version evolution from concept to certified public release. Versions v1 through v10 collectively document all system builds, communications, and administrative validations completed between May and October 2025.

Certification:

All listed versions have been finalized, verified, and archived as part of the Golf4Community 2025 public release process.
